

**WeedX**<sup>TM</sup>  
Organic Weed Killer

WeedX is a broad spectrum, non selective an organic weed killer that rapidly kills the toughest weeds, mosses, algae and lichens. When sprayed over plants, it destroys the outer leaf cells causing plants to desiccate, wilt and die. Fast acting and requires minimal sunlight or heat to work.

#### Product Overview

##### Active Ingredients

Caprylic & Capric Acid

##### Formulation Type

Emulsifier Concentration (EC)

#### Application Guidelines

Dosage (per acre)	Dilution
30 - 90 ml	1 - 1.5 litre

## Weeds Controlled

Annual Sedge, Annual Spurge, Black nightshade, Canada thistle, Catchweed bedstraw, Common Groundsel, Common Lamb's Quarter, Creeping Wood Sorrel, Chickweed, Eclipta, Field Blind weed, Foxtail, Goosegrass, Henbit, Johnson Grass, Palmer Amaranth, Redroot Pigweed, Spotted Spurge, Shepherd's Purse, Wild Chamomile.

## Key Benefits

- Glyphosate free, Broad spectrum & Non-selective weed control.
- Highly effective to be used in both organic and conventional weed management programs.
- High formulation stability allows for better spreading and rapid knockdown.
- Achieves total kill within 12 - 72 hours depending on environmental conditions.
- Unique mode of action that shuts down photosynthesis and kills only weeds.
- Not harmful to beneficial crops when used as directed.

## Use Sites

Nurseries

Gardening

Greenhouse

Turf

Agriculture

Horticulture

Forestry

Hydroponics

Chemigation

Soil Drench

## Shelf Life & Storage

24 months from manufacturing date. Store in a cool, dry, well-ventilated.

## Ideal Spray Interval

10 to 15 days depending upon the growth of the weeds.

## Re-Entry & Pre-Harvest Intervals

REI: 24 Hours | PHI: 0 days (Harvest can be carried out immediately after application).

## Safety & Handling

Safe for humans, & beneficial organisms.

Wear protective gloves & mask.

Avoid contact with eyes & skin.

Wash equipment & hands after use.

Non-selective; avoid crops/turf contact.
