

SpinduraTM *Pro* Spinosad 2.5% SC

Spinosad 2.5% SC is a natural bio-insecticide derived from the fermentation of *Saccharopolyspora spinosa*. It effectively controls a wide range of chewing and sucking insect pests by acting on their nervous system, leading to rapid knockdown and long-lasting control.

It is ideal for integrated pest management (IPM) and organic farming, being both environmentally safe and highly effective at low dosages.

Product Overview

Active Ingredients

Spinosad 2.5% SC

Formulation Type

Suspension Concentrate (SC)

Application Guidelines

Dosage (per acre)

100 - 120 ml

Dilution

200 - 250 L

Pests Controlled

Lepidopterous larvae/caterpillars, Beetles, Fruit flies, Thrips, Leaf miners, Fruit borers, Dipteran larvae, Spotted bollworm.

Key Benefits

- Fast knockdown with long residual activity.
- Effective at low doses, providing broad-spectrum pest control.
- Derived from natural fermentation – safe for beneficial insects and pollinators.
- No chemical residues – ideal for residue-free farming.
- Suitable for both organic and IPM programs.

Use Sites

Nurseries

Gardening

Greenhouse

Turf

Agriculture

Horticulture

Forestry

Hydroponics

Chemigation

Soil Drench

Shelf Life & Storage

24 months from manufacturing date. Store in a cool, dry, well-ventilated.

Ideal Spray Interval

10 to 15 Days depending on the pest incidence.

Re-Entry & Pre-Harvest Intervals

REI: 4 Hours | PHI: 3-5 days (Harvest can be carried out immediately after application).

Safety & Handling

Safe for humans, & beneficial organisms.

Wear protective gloves & mask.

Avoid contact with eyes & skin.

Wash equipment & hands after use.
