

MycovaTM

Beauveria bassiana

Mycova is a biological insecticide formulated with *Beauveria bassiana*, a natural fungus that infects and eliminates insect pests through contact. It penetrates the pest's body, leading to death within a few days.

Completely safe and residue-free, it protects crops without harming the environment.

Mycova is ideal for organic and sustainable farming practices.

Product Overview

Active Ingredients

Beauveria bassiana

Formulation Type

Wettable Powder (WP)
/ Water-Soluble Powder (WSP)

Application Guidelines

Dosage (per acre)	Dilution
2-3 kg	200 - 250 L

Pests Controlled

Whiteflies, Aphids, Thrips, Caterpillars (Helicoverpa, Spodoptera, etc.), Mealybugs, Beetles and borers.

Key Benefits

- Broad-spectrum biological insect control.
- Safe for beneficial insects, pollinators, and the environment.
