iGreen™ Zn

Kriya™

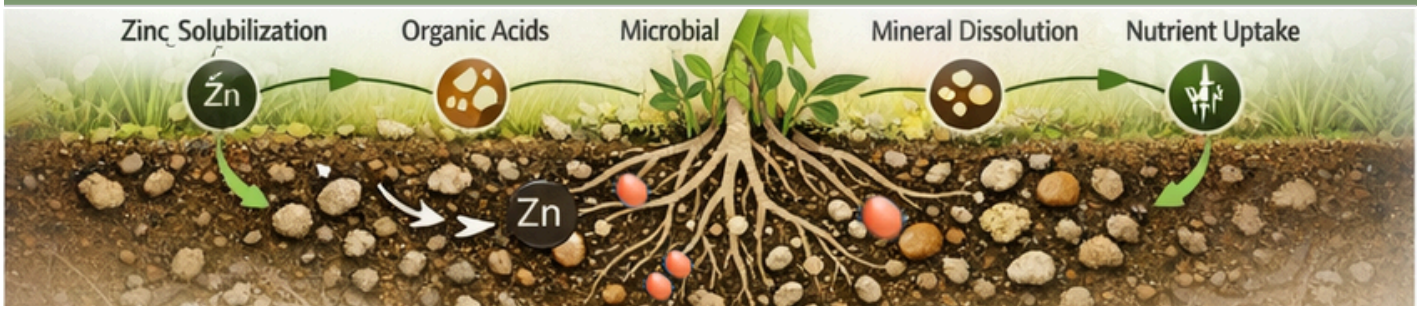
Zinc Solubilizing Biofertilizer

Active Ingredient : ***Bacillus subtilis, Bacillus megaterium***
Formulation Type : **Wettable Powder (WP)**
Minimum Viable Count : **1 x 10^9 CFU per gram**
Mode of Use : **Seed Treatment / Soil Application/Drip Irrigation**

PRODUCT DESCRIPTION

iGreen™ Zn is a zinc-solubilizing microbial biofertilizer containing beneficial *Bacillus* species that enhance the availability of zinc in the soil rhizosphere. The microorganams convert insoluble forms of zinc into plant-available forms through organic acid production and mineral solubilization. This improves micronutrient uptake, supports healthy plant metabolism, and enhances overall crop productivity.

MECHANISM OF ACTION



APPLICATION & DOSAGE

Seed Treatment	5 g per kg seed
Soil Application	0.5 - 1 kg per acre
Application Mode	Drip Irrigation / Drench
Best Application Stage	At sowing or early vegetative stage

TARGET CROPS: Rice, wheat, maize, sorghum, millet, soybean, groundnut, mustard, cotton, sugarcane, potato, tomato, chilli, onion, banana, grapes, citrus, and other fruit, vegetable, and horticultural crops.

KEY BENEFITS

TECHNICAL SPECIFICATIONS

Parameter	Specification
Active Microorganism	*Bacillus subtilis, Bacillus megaterium*
Minimum CFU	≥1 x10^9 CFU/g
Moisture Content	≤ 8%
Contamination	Absent
pH (1% Suspension)	5.5 - 7.5
Shelf Life	12 Months

STORAGE & HANDLING

- Store in a cool, dry place
- Keep container sealed after use
- Protect from direct Sunlight and Moisture
- Avoid contact with Chemicals

SAFETY INFORMATION

- Wear gloves and mask during application
- Wash hands after use
- Avoid inhaling dust during handling
- Keep out of reach of children
