

AdmiraTM Admon

Cinnamon Oil Formulation

Admon brings the natural power of cinnamon to modern agriculture. With a potent 24% cinnamon oil formulation, it provides strong protection against harmful plant diseases while remaining safe for the environment and beneficial organisms. Its broad-spectrum activity, quick response, and compatibility with other inputs make Admon a smart choice for farmers seeking dependable, sustainable crop protection.

Product Overview

Active Ingredients

Cinnamon Oil Formulation

Formulation Type

Water Soluble Powder (WSP)
/ Emulsifier Concentration (EC)

Application Guidelines

Dosage (per acre)

0.5 - 1 Litre

Dilution

200 - 400 L

Pests Controlled

Controls aphids, whiteflies, thrips, mites, mealybugs, scales, and fungus gnats. Also suppresses caterpillars (early instars) and leaf miners.

Key Benefits

- Botanical active ingredient – suitable for reduced-risk/eco-aware programs.
- Broad-spectrum activity against a range of chewing and sucking insects, mites, and certain fungal pathogens.
- Fast knockdown and repellency for many target pests.
- Low residue profile when used as directed.
- Compatible with many IPM strategies; may reduce reliance on synthetic chemistries.
