BioStimulants

Microbial Fertilizer

IGreen™

Consortium of Bacteria (CFU/ml or g >1x10¹⁰)

Bacteria's working together to boost growth, metabolism, & ecology.

IGreen™ NPK

Paenibacillus elgii
Bacillus mucilaginosus
Bacillus megaterium

IGreen™ Soil+

Paenibacillus chibensis
Bacillus subtilis
Bacillus pumilus

IGreen™ Tres

Paenibacillus chibensis
Bacillus mycoides
Bacillus endophyticus

IGreen™ Shield

Bacillus licheniformis
Bacillus amyloliquefaciens
Bacillus subtilis

EnRhize™

Arbuscular Mycorrhiza (>1500 propagules/g)

EnRhize is a fungus–root symbiosis that boosts plant nutrient and water uptake.

Glomus aggregatum, Glomus mosseae & Glomus intraradices

Plant Extracts

Zenita™

Neem Based PGP

Neem, a multifaceted biostimulant, a valuable tool in modern, sustainable agriculture, offering benefits to plant & soil health.

Plant Growth Promoter

Soil Health Improvement

Nutrition Absorption Improvement

Boosting Microbial Activity

Disease & Stress Resistance

Microbial Pesticides

Mycova™

Beauveria bassiana (CFU/ml or g : 1×10^{10})

A versatile biocontrol agent that suppresses a wide range of insect pests and contributes to plant disease management and soil health.

Rexora™

Metarhizium anisopliae (CFU/ml or g : 1×10^{10})

A powerful and versatile biocontrol fungus that manages a wide range of insect pests including soil-dwelling pests like termites and root grubs.

Biota™-V

Trichoderma viride (CFU/ml or g : 1×10^8)

Suppresses a wide range of plant pathogens, including soil-borne fungi. It also controls diseases by inhibiting pathogen growth and colonization.

Products	Other Microbes	CFU/ml or g
Seira™	<i>Verticillium lecanii</i>	1×10^{10}
Neuvita™	<i>Ampelomyces quisqualis</i>	1×10^{10}
Encilo™	<i>Paecilomyces lilacinus</i>	1×10^{10}
Biota™-H	<i>Trichoderma harzianum</i>	1×10^8

Proprietary Solid-State Fermentation Technology

100% Organic

Eco Friendly

Non Hazardous

Biodegradable

Botanical Extracts

Ecoza™

Azadirachtin formulation

Single Application with Quadruple Action

Ecoza Max

Azadirachtin 3.0%

Ecoza Rix

Azadirachtin 1.2%WSP

Ecoza Ace

Azadirachtin 1.2%

Ecoza Pro

Azadirachtin 0.3%

Insecticide

Miticide

Insect Growth Regulator

Nematicide

MargoShine™

Neem oil formulation

Broad-spectrum crop protectant with neem oil acting as fungicide, insecticide, and miticide.

Antifeedent

Sterilant

Repellent

Oviposition Deterrent

Insect Growth Regulation

K-Guard™

Karanjin 2% EC

K-Guard offers powerful control against a wide range of pests. It is eco-friendly, residue-free, and ideal for sustainable farming.

Antifeedant

Repellent Oviposition

Insect Growth Regulator

Hormonal Disruption

Microbial Extracts

Spindura™

Spinosad formulation

A superior formulation with a unique mode of action, broad pest spectrum, and an excellent safety profile for most non-target organisms.

Neurotoxic insecticide

Bio-rational

Dual-action agent

Non-hazardous

— Three Potent Formulations —

Essential Oils

Admira™

Essential oil formulation

Potent essential oil blends for natural wellness and powerful protection. Highly efficient, bioactive encapsulated formulation.

Products	Essential Oils (EC / WSP)
Admira™ Adyme	<i>Thyme Oil Formulation</i>
Admira™ Admon	<i>Cinnamon Oil Formulation</i>
Admira™ Adrlic	<i>Garlic Oil Formulation</i>
Admira™ Adove	<i>Clove Oil Formulation</i>

Home & Garden

Botanicals

Ecoza Rix™
Azadirachtin 1.2% WSP

Margo Rix™
Neem oil 35% WSP

Spindura Rix™
Spinosad 12% WSP

K-Rix™
Karanjin 5% WSP

Admira™ Adyme
Thyme oil capsule

Admira™ Admon
Cinnamon oil capsule

Admira™ Adrllic
Garlic oil capsule

Admira™ Adove
Clove oil capsule

Microbes

Mycova™
Beauveria bassiana

Rexora™
Metarrhizium anisopliae

Biota™-V
Trichoderma viride

Biota™-H
Trichoderma harzianum

Seira™
Verticillium lecanii

Neuvita™
Ampelomyces quisqualis

Encilo™
Paecilomyces lilacinus

BioStimulants

Bacillus subtilis

Ready to use

Capsules

Bio Control Agents

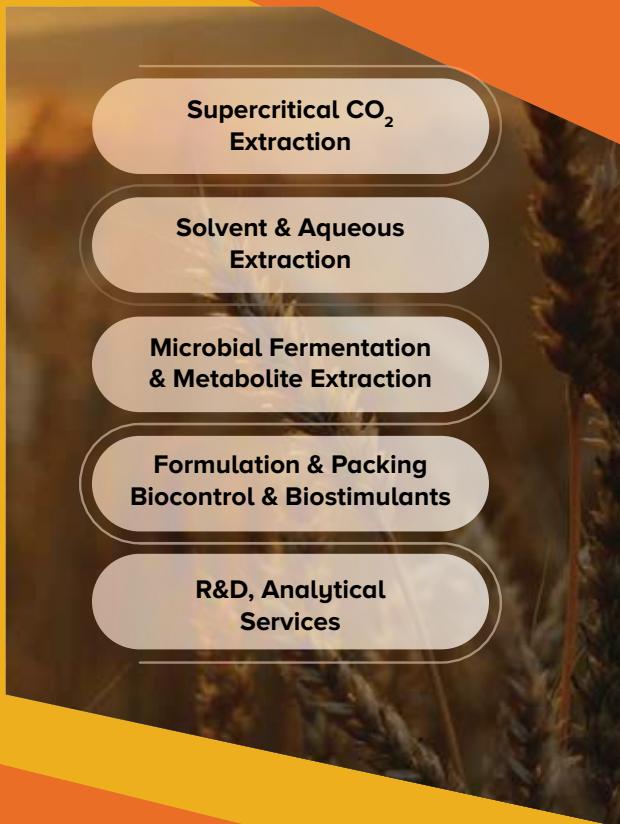

Bio Stimulants

Substrates

Contract Manufacturing Services

- Supercritical CO₂ Extraction
- Solvent & Aqueous Extraction
- Microbial Fermentation & Metabolite Extraction
- Formulation & Packing
Biocontrol & Biostimulants
- R&D, Analytical Services

- Azadirachtin
- Neem Oil
- Essential Oils
- Botanical Pesticides
- Spinosad
- Karanjin
- Bacterial Spores
- Entomopathogenic Fungi

ADVANCED DELIVERY PLATFORM

Enables combinations of insecticides

Enhances bioavailability of actives, improves stability, boosts uptake & effectiveness.
