

Admira™ *Adyme*

Thyme Oil Formulation

Admira Adyme is a broad-spectrum fungicide and bactericide concentrate formulated with thyme oil for the management of fungal and bacterial foliar pathogens across all crops. When applied as a foliar spray, Admira Adyme helps protect treated plant parts against diseases such as powdery mildew, grey mold, bacterial spot, and fungal wilt. It can be used as a curative when disease is present, or as a preventative under conditions favorable for infection.

Product Overview

Active Ingredients

Thyme Oil Formulation

Formulation Type

Water Soluble Powder (WSP)
/ Emulsifier Concentration (EC)

Application Guidelines

| Dosage (per acre) | Dilution |
|-------------------|------------|
| 1 - 2 Litres | 2 - 4 mL/L |
| 500 g - 1 Kg | 2 - 3 g/L |

Pests Controlled

Thrips Aphids, Whiteflies, mites, spider mites, powdery mildew, botrytis and other fungal disease, leaf hopper and Caterpillars, Borers, Leafhoppers, Root grubs.

Key Benefits

- Contains natural essential oil with high thymol (36–55%) and carvacrol levels.
- Provides broad-spectrum antimicrobial and insecticidal action.
- Rapid knockdown and deterrent effect on common insect pests and fungal pathogens.
- Biodegradable with minimal environmental impact.
- Safe for use in organic and sustainable agriculture systems.
