

# Admira™ Admon

Cinnamon Oil Formulation

Admira Admon brings the natural power of cinnamon to modern agriculture. With a potent 24% cinnamon oil formulation, it provides strong protection against harmful plant diseases while remaining safe for the environment and beneficial organisms. Its broad-spectrum activity, quick response, and compatibility with other inputs make Admon a smart choice for farmers seeking dependable, sustainable crop protection.

## Product Overview

### Active Ingredients

Cinnamon Oil Formulation

### Formulation Type

Water Soluble Powder (WSP)  
/ Emulsifier Concentration (EC)

## Application Guidelines

Dosage (per acre)	Dilution
500 - 1 L	2 - 4 mL/L
500 g - 1 Kg	2 - 3 g/L

## Pests Controlled

Controls aphids, whiteflies, thrips, mites, mealybugs, scales, and fungus gnats. Also suppresses caterpillars (early instars) and leaf miners.

## Key Benefits

- Botanical active ingredient – suitable for reduced-risk/eco-aware programs.
- Broad-spectrum activity against a range of chewing and sucking insects, mites, and certain fungal pathogens.
- Fast knockdown and repellency for many target pests.
- Low residue profile when used as directed.
- Compatible with many IPM strategies; may reduce reliance on synthetic chemistries.

## Use Sites

Nurseries

Gardening

Greenhouse

Turf

Agriculture

Horticulture

Forestry

Hydroponics

Chemigation

Soil Drench

## Shelf Life & Storage

24 months from manufacturing date. Store in a cool, dry, well-ventilated.

## Ideal Spray Interval

10 to 15 Days depending on the pest incidence.

## Re-Entry & Pre-Harvest Intervals

REI: 4 Hours | PHI: 0 days (Harvest can be carried out immediately after application).

## Safety & Handling

Safe for humans, & beneficial organisms.

Wear protective gloves & mask.

Avoid contact with eyes & skin.

Wash equipment & hands after use.
