

# Rexora™

## Metarhizium anisopliae

Rexora offers a natural and environmentally sustainable approach to crop protection. Formulated with high-quality *Metarhizium anisopliae* spores, it leverages the power of nature's own biological control agent. The product demonstrates excellent adaptability across diverse crop systems and environmental conditions, providing effective pest control with minimal ecological footprint. Its long shelf life and stable formulation make it a reliable choice for sustainable agriculture programs seeking to balance productivity with environmental stewardship.

### Product Overview

#### Active Ingredients

*Metarhizium anisopliae* -  $1 \times 10^9$  CFU/ml

#### Formulation Type

Wettable Powder (WP)  
/ Oil Dispersion (OD)

### Application Guidelines

Dosage (per acre)	Dilution
Foliar Spray - 500 ml	3 ml/L
Soil Drench : 400 - 600 g	3 mL/L

## Pests Controlled

Diamondback moth, cotton bollworm, root grubs, termites, leaf hoppers, shoot borers, white grubs, cutworms

## Key Benefits

- Broad-spectrum biological control agent.
- Effective against both soil and foliar insect pests.
- Eco-friendly, residue-free, and compatible with organic farming.
- Improves soil microflora and enhances root health.
- Safe for beneficial insects and pollinators.

## Use Sites

Nurseries

Gardening

Greenhouse

Turf

Agriculture

Horticulture

Forestry

Hydroponics

Chemigation

Soil Drench

## Shelf Life & Storage

24 months from manufacturing date. Store in a cool, dry, dark place; protect from moisture and direct sunlight

## Ideal Spray Interval

10 to 15 Days depending on the pest incidence.

## Re-Entry & Pre-Harvest Intervals

REI: 4 Hours | PHI: 0 days (Harvest can be carried out immediately after application).

## Safety & Handling

Safe for humans, & beneficial organisms.

Wear protective gloves & mask.

Avoid contact with eyes & skin.

Wash equipment & hands after use.
