

# Spindura™ *Plus*

## Spinosad 25.2% SC

Spindura Plus is a broad-spectrum, eco-friendly biological insecticide developed from compounds produced by the soil actinomycete *Saccharopolyspora spinosa*. It is favored for its effectiveness on resistant and hard-to-control pests and its minimal impact on beneficial insects.

### Product Overview

#### Active Ingredients

Spinosad 25.2% SC

#### Formulation Type

Suspension Concentrate (SC)

### Application Guidelines

#### Dosage (per acre)

80 - 100 ml

#### Dilution

240 - 280 L

## Pests Controlled

Caterpillars , Thrips, Leaf miners, Fruit borers, Pod borer, Diamondback moth, Dipteran larvae.

## Key Benefits

- Rapid knockdown and extended residual effect.
- Novel mode of action targets nervous system, often effective where resistance to other insecticides has developed.
- Safe for beneficial insects when used as directed, making it compatible with integrated pest management (IPM) strategies.
- Minimal residue, safe for use close to harvest.

## Use Sites

Nurseries

Gardening

Greenhouse

Turf

Agriculture

Horticulture

Forestry

Hydroponics

Chemigation

Soil Drench

## Shelf Life & Storage

24 months from manufacturing date. Store in a cool, dry, well-ventilated.

## Ideal Spray Interval

10 to 15 Days depending on the pest incidence.

## Re-Entry & Pre-Harvest Intervals

REI: 4 Hours | PHI: 3-7 days (Harvest can be carried out immediately after application).

## Safety & Handling

Safe for humans, & beneficial organisms.

Wear protective gloves & mask.

Avoid contact with eyes & skin.

Wash equipment & hands after use.
